

My Time at Cashmere High School

Panida Intarasit (Thailand)

I came to New Zealand because I wanted to study English and learn a new culture. The day after I arrived in New Zealand I went to Cashmere High School. I met new friends and I was so excited, I loved them! I thought I could find good friends and have a good experience in Christchurch. I was really happy. At my school in Thailand in Year 11 all the subjects are compulsory but at Cashmere High School the only compulsory subjects are Math, Science, English and ESOL. I like it because I can choose which ones I want to study. I like the school uniforms at Cashmere High School. I could understand when the teacher taught me.

The people were very friendly. My favourite subjects at Cashmere are geography, art and digital technologies. I got a lot of knowledge from these classes. I learnt how to create my own web pages. I used my imagination. It was a great memory of the time I spent here. I learnt about new cultures, festivals and religions. I saw lots of beautiful places. I learnt about how to make life better. I had a good experience. I made many friends. My English improved. I really love New Zealand so I want to come back again. In my opinion, I think New Zealand has the best education. Lots of students are very clever and friendly. I want to stay here for a long time.
