CASHMERE HIGH SCHOOL

Procedures for Injury and Incident Management and Reporting

Aim:

The Board of Trustees acknowledges that incident management is key to the school's Health and Safety systems and processes.

Incident management requires a school wide approach with clear points of accountability for reporting and feedback. The purpose of these procedures are to:

- outline the principles of incident management
- standardise the incident management process
- ensure consistency in definitions
- outline roles and responsibilities for incident management

Scope:

These procedures apply to and must be followed by all of our workers and others in our school workplace. This includes all members of the school's leadership team, workers, contractors, temporary workers, volunteers, students and visitors.

The board will consult, co-operate and co-ordinate with other duty holders on matters when there are overlapping Health and Safety duties.

How do we manage incidents effectively?

The principles of accountability, obligation to act, and collaboration should be applied at each step of the incident management process. The six steps include identification, notification, classification, investigation, action and evaluation.

1. Identification

It is important for all workers to recognise when an incident or near miss has occurred. Workers need to act immediately to make sure those who are involved are safe and that the workplace poses no further risks. First aid may be required. First aiders are available to provide immediate assistance to anyone who has suffered an injury or illness while at work.

2. Notification

Workers must notify their relevant school leader when an incident or near miss has occurred. The board uses the incident notification form (AIF) to document incidents. School leaders are required to investigate incidents lodged by their workers to ensure local action is taken. All incidents and notifiable events including near misses must be reported.

3. Assessment

The relevant school leaders need to assess the level of incident that has occurred. When a 'Notifiable Injury or Illness' and/or 'Notifiable incident' happens, WorkSafe NZ must be contacted. This is called a Notifiable event. The site must be kept preserved to allow WorkSafe NZ to inspect it. Examples of a notifiable incident include harm that causes hospitalisation for 48 hours or more, amputation of a body part, etc.

4. Investigation

All incidents, including notifiable events, should be investigated to identify the causes. Following the investigation, corrective actions to prevent similar incidents and injuries happening again are identified and implemented as soon as possible after the event.

5. Action

Actions are developed for each recommendation. Actions may be in the form of putting in place risk controls. The Health and Safety Representative (HSR), the affected worker, and others in the workplace may be consulted about the action. Accountability for each action will be given to a person in the workplace. Progress on the implementation of actions is monitored regularly. Mechanisms for monitoring include risk registers, department and faculty meetings, health and safety committee, and aggregated information collated by the Associate Principal. The Associate Principal collates this information to generate reports and analyse incident data to identify trends, risks and to initiate, monitor and/or evaluate system improvements.

6. Review

This step monitors whether the actions taken have been successful in preventing further incidents. Actions that have been made must be regularly monitored and reviewed to ensure that they are effective. The Associate Principal is expected to do this in consultation with workers.

Roles and Responsibilities

Everyone has a part to play in managing incidents effectively.

Person Conducting a Business or Undertaking (PBCU)

The board of trustees is committed to providing and maintaining a safe and healthy workplace for all workers, students, and other people in the workplace. We will achieve this through:

- making health and safety a key part of our role
- doing everything reasonably possible to remove or reduce the risk of injury or illness
- making sure all incidents, injuries and near misses are recorded in the appropriate place
- investigating incidents, near misses and reducing the likelihood of them happening again
- having emergency plans and procedures in place
- training everyone about hazards and risks so everyone can work safely
- helping workers who were injured or ill return to work safely

Officers – (Board members, Principal and members of the Senior Leadership Team)

- know and keep up to date with incidents that are associate with the school's operations
- ensure resources and processes are in place to prevent incidents
- ensure processes are in place for timely information on incidents
- ensure health and safety processes are actually implemented
- monitor the health and safety performance of the school

Workers – (employees, temporary workers, contractors, volunteers)

- take reasonable care of their own health and safety
- ensure their actions or omissions do not affect other's health and safety
- immediately report any incident to their relevant school leader
- report any risk or hazard to the relevant school leader to prevent injuries occurring
- cooperate with the incident management procedures in the workplace including investigations of incidents

- participate in the implementation, monitoring and evaluation of actions following an incident investigation
- comply with any reasonable instruction given by the board or the PCBU they are visiting
- encourage fellow workers and others visiting the workplace to notify identified incidents

Members of the school's leadership team

- view all incident investigation forms submitted by workers as soon as practicable
- report notifiable incidents to WorkSafe NZ via the school's principal
- investigate all incidents submitted by workers who report them, undertake actions in a timely manner, and document these
- consult with health and safety representatives, the affected worker, and others in the workplace during investigations and actions
- delegate actions to relevant workers, who may also need to review them
- monitor and review the effectiveness of actions taken

Health and Safety Representatives

- represent workers on matters relating to health and safety incidents
- investigate complaints from workers in the workplace
- monitor the incident management approach undertaken by the board
- promote the interest of workers who have raised/reported health and safety incidents
- if requested by the relevant school leader, participated in incident investigations

First aiders

- take reasonable care of their own health and safety
- identify themselves to workers and others in the workplace
- provide immediate assistance to anyone who has suffered an injury or illness while at work
- ensure that the workplace has adequate First Aid resources
- ensure that First Aid can be provided for the risks that are apparent within the workplace
- keep their qualifications up to date
- attend training or refresher courses as provided

Others in the workplace – (visitors, students, parents, etc.)

- take reasonable care of their own health and safety
- ensure their actions or omissions do not affect other's health and safety
- comply with instructions given by the board or another PCBU
- immediately report any incident to an officer
